

# Denominational & Church Network Services

## Resourcing Through Relationship

The ministry of Praxis all happens in the context of *relationship*. It is through relationships that we seek to support denominational and church network leaders in their mission to care for, grow and multiply the local churches and pastoral leaders within their areas of responsibility.

Through developing relationships with such leaders, we are able to craft specific resourcing that enhances their fruitfulness in the assignments that the Lord has given them. In addition, we seek to network leaders together, building learning communities, sharing what insights Jesus has given to each of us.

## How We Do It

Through these “resourcing relationships” Praxis provides coaching, training and developmental tools designed to resource you in a number of different ministry areas. Here are just a few of the key areas Praxis can help support you:

### Church Multiplication—*The Quest*

*The Quest* is a three-day church planting intensive designed to give the planter and their core team the tools needed for implementing a new church. This intensive will help the planting team think through everything about the planting project and develop a step by step implementation strategy. The

*Quest* is a culturally-neutral, non-model specific, principle-driven approach to starting a new church. We are available to come to your location and train your planting teams. Training is also available for denominational/network teams who wish to use *The Quest* in preparing their planters.

In addition, the Praxis team can help you implement a church multiplication movement through **executive coaching & process leadership**. Praxis can come alongside you, walking with you through system development.

## Pastoral Assessment—*Vista*

Much has been written about assessing church planters, but what about existing church pastors?

Everyone needs a check up—and *Vista* is a pastoral health diagnostic tool that determines what training, development and other resources a local church pastor needs to take their congregation to the next level. Designed for use by those overseeing those in pastoral ministry, *Vista* can help you determine how to support and nurture the shepherds under your care. Contact us for more information.

## Pastoral Development—*The Crossing*

A two-day experience that helps pastors think through what they really believe about the nature and purpose of the Church from a New Testament perspective—and then develop plans to act on it. A challenging “*journey of radical rediscovery*,” *The Crossing* re-orientes the leader to the core of Christian ministry, namely *loving God, loving others, and making disciples*. The Praxis team is available to lead your pastors through *The Crossing* at your location. Contact us for more information.

## Contact Us

These are just a few of the ways in which we can serve you. If we can be a resource to you, or you would like more information on our ministry, please feel free to contact us—we look forward to talking with you soon!
